## How it helps your business?

It gives your business a unique online identity on the internet at a common platform where a number of businesses like you nurture and flourish. It strengthens your online presence by including your business in various search engine results.

In today's era it is detrimental for any business to neglect the online presence. With more than two billion internet users, marketing a business online is as powerful as advertising with traditional methods.

## Promotional Opportunities

We look forward to collaborate with various web service providers such as FREE domain registrars, SMS Gateways, Email providers etc. for integrating them with Webmarked Services.

## How it helps the society?

Using the Webmarked platform , people can easily search for relevant business in any city, contact them directly and place orders. It provides an infrastructure of common marketplace so that people can browse for concerned products at preferred locations at competitive prices.

## How it benefits you?

- If you are a business owner you can benefit your business immensely with our services and earn by monetizing it with Google AdSense.
- If you don't own a business, you may create business profile of any businesses you know of and earn by placing ads on it with AdSense
